Hi Lydia,
Here's the information for Docket. Sorry for the delays! If you figure out what is wrong with my CCDS, let me know.
Thanks, Leena

Contamination to be removed:

- 19,000 square feet of TCE/PCE contaminated soil at Building 12
- 150 cubic yards of PCE contaminated soil at Building 13
- 27 cubic yards of lead contaminated soil for Building 12

Main Milestones:

Submit notice to successors in title to EPA for review: 2/12/10

Defendants record notice within 15 days of approval by EPA and submit a copy to EPA within 15 days of recording

Financial Assurance submitted to EPA: due 2/23/10

Work Plan for design of Remedial Action (RDWP): due 2/18/10

Upon approval of RDWP, Defendants implement the work plan

Within 45 days of approval of the RDWP, Defendants shall submit a work plan for the remedial action (RAWP)

Once the RAWP is approved, Defendants implement the RA

Once EPA approves the O&M plan (included with the RAWP), Defendants implement the O&M Plan
